{ code club } / **UNITED KINGDOM**
Code Club UK is a nationwide network of volunteers and educators who run free coding clubs for young people aged 9-13.

Our aim is to inspire the next generation to get excited about computer science and digital making.

Get involved with Code Club today!

✅ Volunteers - help run a club in your local community

✅ Educators - host a club at your school, library or community venue

✅ Supporters - donate to help Code Club reach more children across the UK

"I made a game on Scratch which I am proud of because I programmed it by myself. I really enjoy Code Club and would love to do it next year."

Grace, aged 11
